

Cambridge University, so they weren't stupid, in fact they were some of the brightest minds of our nation. So what can it be that made these men believe all of that nonsense? Perhaps it's not nonsense at all? Look, let me ask you a question. What have you tried? Have you been to the local C of E church and found it full of mumbo jumbo? Have you tried meditating or Yoga? Are you tempted to go down to the mosque to see if that is the way? Or do you just find it great to go out with your mates for a few pints of 'wife beater' and fall down laughing?

Most of it will leave you with a hang over, and that's what the nation is suffering from. Look, I am not asking you to read this and then believe what I say. I am asking you to think about where you are, and who you are, and where you came from. Speaking as someone who loves the Bible, I am biased. Of course I would tell you that it is the greatest, most trustworthy book ever written, because that's what I know. No, what I am asking you to do is to read it yourself and make your own heart's choice. Ask yourself the question and let the Bible answer it. Find out if it is still relevant. I find it so, and I read a really old translation from 1611!!! The answer for the nation is clear. A nation is the sum total

of the people in it, so to revive it is to start with you. Do you know Jesus loves you? Do you even know who He really is (and I do mean is, and not was)? We still have a superb Navy, and we are on the cusp of technical break-through, - just look at things such as nuclear power, computers, television and medical implants. We have all of these things, so why turn our backs on that third thing? Why do we continue to let our nation die rather than live? The Bible says; "Why do the heathen rage and the people imagine a vain thing?" Isn't that what we do every day, imagine vain things?

Please read the Bible, find out what I am talking about. It is trustworthy.

A CHALLENGE TO YOU TO READ THE BIBLE

What is a nation? What and who is our nation? Why has it changed and why does it need to change? Our nation is called The United Kingdom of Great Britain and Northern Ireland and we have been one of the most powerful nations on the earth, ruling over a quarter of it at different points in history. Indeed the sun never set on the British Empire. So why has it gone? Why is our nation declining so very fast? The nation has never been in such a poor state: some people work, some don't, some can't, some won't. We have people who live by the law, some who won't. We have pressures of work and society, perverseness, violence, lying, stealing and deception. But why? What is a nation? One definition of a nation is simply "a group of people". OK so we are a group of people, so what? We have all of the social problems and seemingly none of the answers. How many people seem to try and

offer an answer? The politicians lie, the Police can only do what the law allows them, the Church of England seem to debate endlessly and often don't seem to believe the basic principles of Christianity. There are Hindus, Buddhists, Muslims, Wickers and many other sects

and beliefs running from Druids to the Freemasons. No wonder we fight, steal and lie. Our nation is confused, wounded and sick.

What's the cause? – Simply that there is no trust. Why? Because we do not find anyone worthy of giving our trust to.

How did we ever get to a state where we ruled a quarter of the globe? – We had three things going for us when we managed that;

1. We had a superb Navy that out-classed the skills of other nations.
2. We developed industry and made technical advances that were over and above any that any other nation could

match, with men such as James Watt, Brunel, and Stephenson.

3. Our nation was the cradle of revival, of a move toward God that was enormous. Men like the Wesley brothers, George Muller, The Cambridge Seven, Hudson Taylor, General Booth, Smith Wigglesworth and Duncan Campbell read and trusted every word of the Bible.

Hang on a minute; the Bible is a collection of books that was written over two thousand years ago. It's just something that is used at weddings and funerals, and it can't be true because Dan Brown says it's a load of lies in the Da vinci Code. That's the truth isn't it? Then why did these great men believe it, and not just part of it but every word? Were they stupid? – No! The Wesley brothers were graduates of Oxford and John Wesley was an Oxford don, the Cambridge Seven were all graduates of
